ECAS COMPLIANCE & PRODUCT SAFETY STATEMENT

BUBBACOON BABY SLEEP COCOON

Regulatory Compliance (United Arab Emirates)

Bubbacoona Baby Sleep Cocoon is registered and certified under the Emirates Conformity Assessment Scheme (ECAS) in accordance with applicable UAE regulations for textile products issued by the Ministry of Industry and Advanced Technology (MOIAT).

The product falls under the category of Textiles – Miscellaneous Textile Products and complies with the UAE Scheme for the Control of Textile Products (Decision No. 54 of 2019).

An ECAS Certificate of Conformity has been issued to Dominion FZ-LLC, confirming that the product meets the mandatory regulatory requirements for import, sale, and distribution within the United Arab Emirates.

Product Safety & Material Compliance

The Bubbacoona Baby Sleep Cocoon is manufactured using textile materials that have been assessed for compliance with applicable UAE safety standards, including requirements relating to:

- Material safety and chemical compliance;
- Textile composition and labeling; and
- Consumer product conformity for infant textile items.

The product is intended for infant use (0–6 months) and is classified as a soft textile baby sleep accessory, not as a mattress, medical device, or therapeutic product.

Intended Use & Safety Disclaimer

Bubbacoon is designed to provide a comfortable and supportive sleep environment when used under adult supervision and in accordance with general infant safe-sleep guidelines.

This product:

- Does not claim to prevent medical conditions or replace parental supervision;
- Is not a medical or orthopedic device; and
- Should always be used on a flat, stable surface.

Parents and caregivers are advised to follow standard infant sleep safety practices at all times.

Certification Transparency

The ECAS certification confirms regulatory conformity for textile products under UAE law.

It does not imply medical endorsement or clinical claims.

Full certification details, including product category, country of origin, and certificate validity, are available upon request.
